Programming Languages

Skills

- Backend Development with Golang
- Microservices Architecture
- Database
- Version Control (Git)
- Cloud platforms (GCP)
- DevOps Practices
- Kubernetes & Docker
- Distributed Systems
- Collaborative and Creative Problem Solving

Versatile Lead Software Developer with over 5 years of professional experience in software engineering. Expertise in Golang development, microservices architecture, building scalable systems and cloud technologies. Consistent in delivering clean, error-free, reliable code to meet current or expected needs.

Work History

2022-08 -
Current

Lead Software Developer

UnitedHealth Group, Hyderabad, Telangana

- Developed a Kubernetes Operator and Agent in Golang, automating Kafka resource generation in a Kubernetes GKE cluster using Custom Resource Definitions (CRDs). Designed for high scalability, this solution supports thousands of production customers and manages an extremely large number of resources efficiently.
- Utilized Elasticsearch for storing and searching metadata, improving the efficiency of verifying resource existence before creation.
- Designed and developed REST APIs to support UI functionalities, ensuring robust and efficient data handling.
- Mentored and guided engineers, providing technical guidance, conducting code reviews, and organizing knowledge-sharing sessions.

2021-03 -
2022-08

Senior Software Developer

UnitedHealth Group, Hyderabad, Telangana

- Implemented a Python-based CI/CD automation for GitHub, automating PR analysis and merges.
- Developed a role-based Admin Dashboard in Golang for our platform offering, integrating secure APIs for PagerDuty alerts, ServiceNow ticket management, and GitHub API for tracking open issues.
- Utilized PostgreSQL for scalable storage of user data, ensuring integrity.
- Implemented backend services with SOLID principles for maintainability.
- Orchestrated Docker and Kubernetes for streamlined deployment.
- Ensured code quality with comprehensive unit tests written in Golang.

2019-07 -
2021-03

Software Developer

UnitedHealth Group, Hyderabad, Telangana

- Deployed and managed the infrastructure for Kafka to support petabyte-scale data across on-premise and GCP cloud data centers
- Automated build and deployment of data platform components using Terraform, Github Actions, Docker, and Kubernetes.
- Implemented monitoring, observability, and telemetry for platform components, enhancing overall system visibility and readiness.
- Provided on-call support to address and resolve critical issues outside regular working hours.

Education

2015-07 -
2019-05

B.Tech: Computer Science & Engineering

National Institute Of Technology - Raipur
CGPA **09.41**

2013-04 -
2014-04

Higher Secondary Certificate: CBSE

Gyan Niketan - Patna
PERCENT **93.00%**

Achievements

- Bagged 5 awards for development, creativity, leadership and collaboration that are among the 5 best qualities defined for an engineer in the organization.
- Star Award winner for various quarters in the Data Platform team at Optum.
